## Drittlandssteinkohlepreise frei deutsche Grenze

Bis zum Jahr 1995 basierten die Durchschnittspreise für Drittlandskohle auf den von den Abfertigungsstellen übersandten Einfuhrunterlagen und den Heizwertangaben der Einführer. Dabei wurde nur die im ehemaligen Bundesgebiet (Gebietsstand vor dem 3. Oktober 1990) zur Stromerzeugung eingesetzte Steinkohle berücksichtigt.

In den Jahren 1991 und 1992 stehen die Mengen in t und t SKE nicht mehr vollständig zur Verfügung.
